

# Make the Leap to Fiberglass!

Available in a range of standard sizes and elbow angles!

## **PWEagle** Fiberglass Reinforced Elbows

PW Eagle's Fiberglass Reinforced Elbow\* product line is specifically engineered to provide more freedom and flexibility than rigid elbows when joining new or previously installed electrical conduit.

PW Eagle's Fiberglass Reinforced Elbows are available in standard diameters and elbow angles (refer to chart) with PVC couplers attached.

- Rugged, yet lightweight
- Less expensive than rigid steel elbows
- Engineered for new or existing connections
- Greater corrosion-resistance than steel
- Lesser coefficient of friction than steel with equal strength
- UL Listed
